

## IP65 Keyboards

Suitable for Healthcare, Infection Control, Clean Rooms, and Wet & Dusty environments

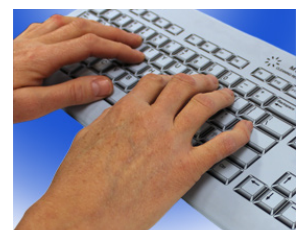

Medigenic Keyboards and mice are the peripherals of choice when it comes to Clinical, Clean-Room and Industrial applications where protection against dust and water is required (IP65). The keyboard is of a flat design providing immediate tactile feedback for touch typing. The keyboard and mouse covers are latex free making them easy to clean and disinfect.

Our Essential model is ideal for all applications and our Compliance keyboards are specifically designed for clinical applications, incorporating a time based cleaning alert indicator and backlit keys, making them ideal for hospitals, medical clinics, research institutions, dental clinics, blood banks or any environment where contamination is a risk.

- Cost effective alternative to conventional keyboards and keyboard covers
- Latex Free, flat design makes means easy cleaning and disinfecting without disconnection
- Immediate tactile feedback for touch typing responsiveness
- IP65, protected against dust and water and suitable for use in 0°C to +40°C
- USB Connection

### Approvals:

- FCC Declaration of Conformance (USA)
- UL and cUL Notice of Approval (USA and Canada)
- EU EN55011 EMC Declaration of Conformance (European Union)
- EU EN6060-1-1-2 Medical Safety Declaration of Conformance (European Union)
- CB Scheme Certificate (International)
- USB Compatible
- CE Declaration of Conformance, Safety and EMC (European Union)

Flat keyboard design quickly wipes clean with hospital grade disinfectants. Full size keyboard enables health-care professionals to touch-type with conventional keyboard-like performance.

## Medigenic Essentials Keyboards

Easy to clean, cost effective

The Medigenic Essential Keyboard is an easy to clean cost effective keyboard for use in any medical environment. Impervious to cleaning products this keyboard is completely flat eliminating recesses where bacteria may hide. This keyboard has been sealed to an IP65 rating so it can be washed under a tap if necessary. Made from a silicone based material the keyboard is latex free making it hypoallergenic.

Part Number	Description	Dimensions (mm)
K104E01-US	104 Key Essential Keyboard	462 x 170 x 34

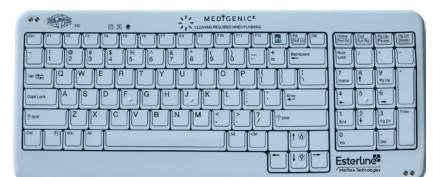

## Medigenic Compliance Keyboards

Time based cleaning alert indicator, backlit keys

The Medigenic Compliance Keyboard helps to monitor its own cleaning status letting you know when its time for cleaning. This keyboard is entirely compatible with Windows operating systems and can be cleaned with hospital grade antibacterial wipes and sprays. This keyboard has user defined time based cleaning alert indicator and backlit keys for low light areas.
